	The warm sun rises in the sky
	And the sun rays reach out to touch all parts of the world.
	But look, clouds appear and cover the sun.
	Then comes the wind and it blows harder and harder.
	Then comes the rain and it rains harder and harder.
	And everyone jumps in puddles. Splish, splash, splosh.
	A rainbow appears in the sky.
	It feels cold and everyone shivers.
	The snow comes and everything is white and beautiful.
	Everything is still and quiet.
	Then the sun shines and melts the snow.
	Everyone feels warm and happy.
